

## Firm Profile

### Introduction

Jobs Henderson and Associates, Inc. (JHA) is a Civil Engineering and Land Surveying consulting firm serving Ohio for over 40 years. The firm specializes in providing personal, high quality civil engineering design and land surveying services to all its clients. Jobs Henderson is ODOT prequalified and State of Ohio EDGE certified.

### Cientele

We provide planning and design services to clients throughout the entire state. These clients include the Ohio Department of Transportation (ODOT), counties, municipalities, private developers, commercial developers, corporate businesses, and nonprofit organizations among others.

### Owners

The firm currently has five owner/operators that will serve as the points of contact and lead your project team.

James L. Van Ostran, P.S., C.E.T.  
C.E.O.

James G. Roberts, P.E.  
President

Kenneth B. Stewart, P.E.  
Vice President

Jeremy Van Ostran, P.S.  
Vice President

Steven Crist, P.S. (KY)  
Associate

In addition to the dedication of these experienced owners, your services will be provided by a management team of which several are stockholders and therefore are fully dedicated to the timely completion of quality projects for all of our clients.

### Personnel

Your projects are performed by a technical team comprised of highly skilled professionals and trained technicians that are hand picked for their experience and specializations. This team includes registered engineers, surveyors, experienced technicians, scientists and biologists. The team is supplemented, as needed, by other professionals within the firm.

### Location

Our corporate headquarters is centrally located in Newark, Ohio. This location allows us to respond to our clients needs on very short notice and permits us to be anywhere within the state in two (2) hours or less.

### Experience

JHA has served the Ohio Area since 1965 and has built a reputation for being a quality oriented, dependable, timely, community conscious as well as a thoroughly professional and service oriented firm. Competent trained personnel with excellent management skills and the required technical knowledge provide all of our services. Our principals are actively involved with each project in management, quality control, site visitations and client relations.
